# COMPANY'S APPROACH

We create value through solving social issues with our portfolio centered on IT/AI/IoT/DX

# OUR FOCUS AREA

We focus on core aspects of human beings

AGRICULTURE

HEALTHCARE

EDUCATION

# PROJECT EXAMPLES

Last year we have established some icon projects with co-creation in 2 countries

## Ikata Town, Ehime Prefecture Challenge Field

(Period: 2022~)

Collecting and analysing data on town residents' activities using facial recognition technology to achieve Smart village for elders platform. All in one place platform for all sorts of data.

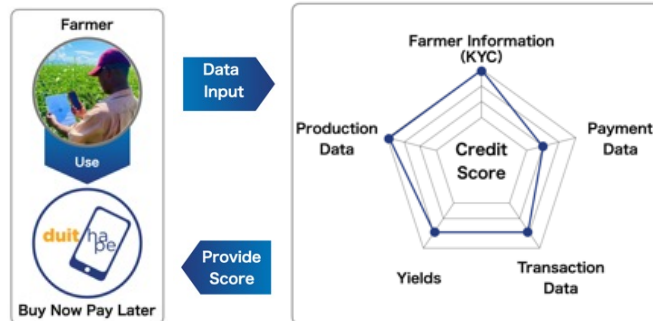

Service example

- Health management services
- Hybrid transportation
- Shopping assistance
- Telemedicine
- Etc...

## JETRO Asia Digital Transformation (ADX) projects

### Digital agricultural cooperative platform centered on credit scoring for farmers

(Period: 2022~)

To establish a digital agricultural cooperative that provides agricultural guidance, provision of materials, financial services, and assist sales in one single platform.
