

# ASEAN=Japan Economic Relation

Supply Chain has been a foundation of our economic relationship.

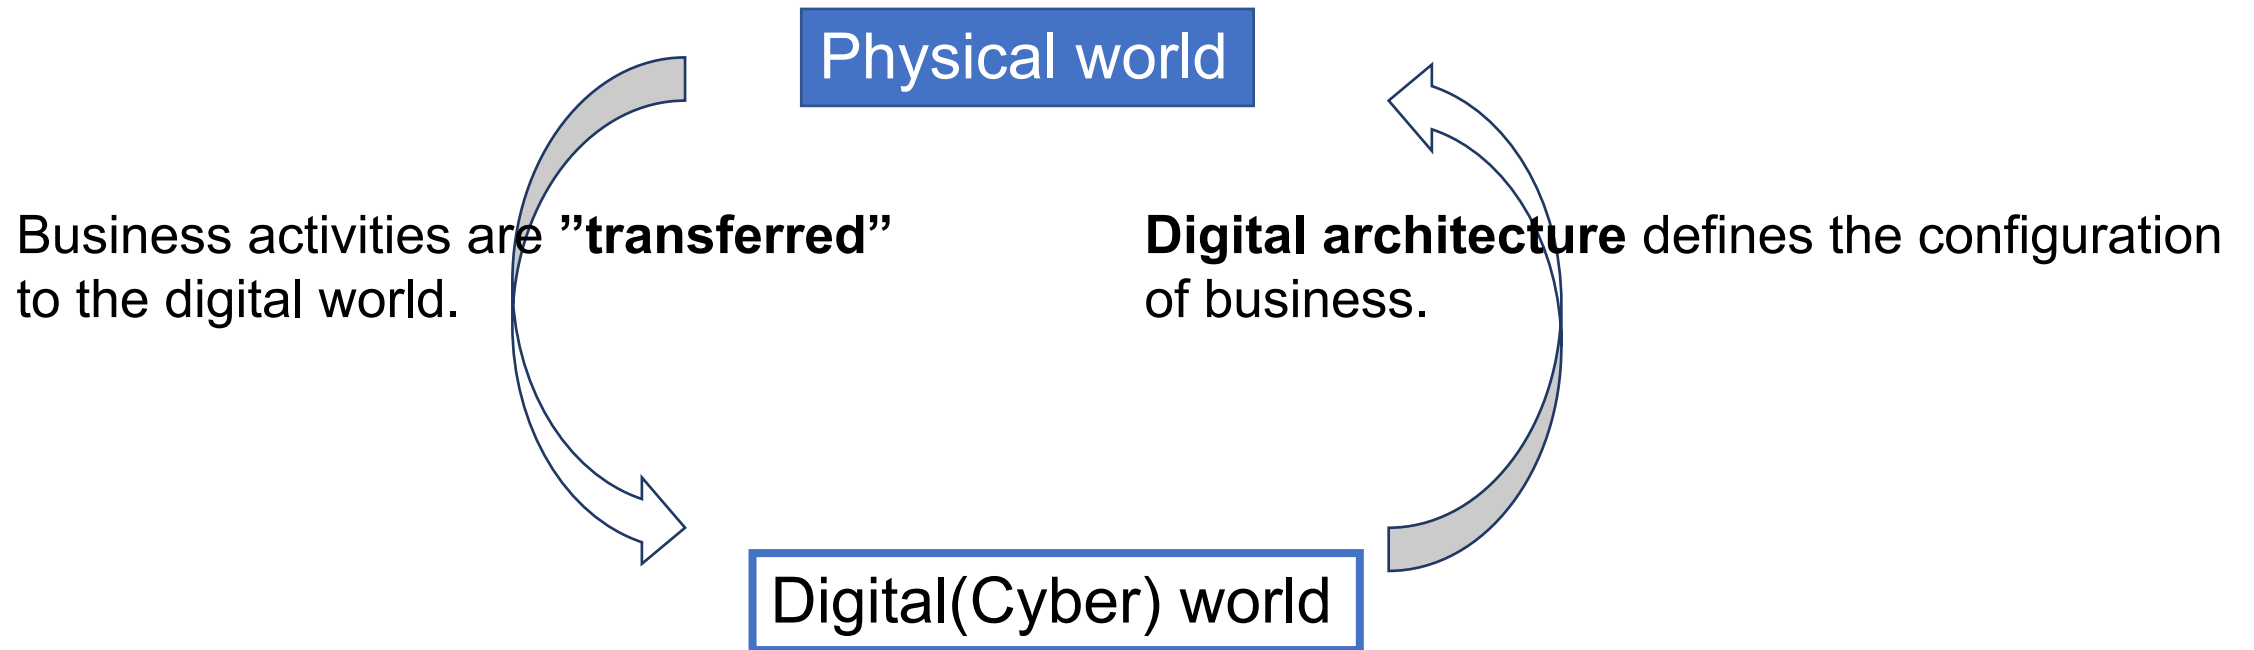

Business: Supply Chain

Policy: Cooperation Initiatives

Rules: AJCEP

Digitalization alters the nature of supply chain.

# Cyber=Physical Integration

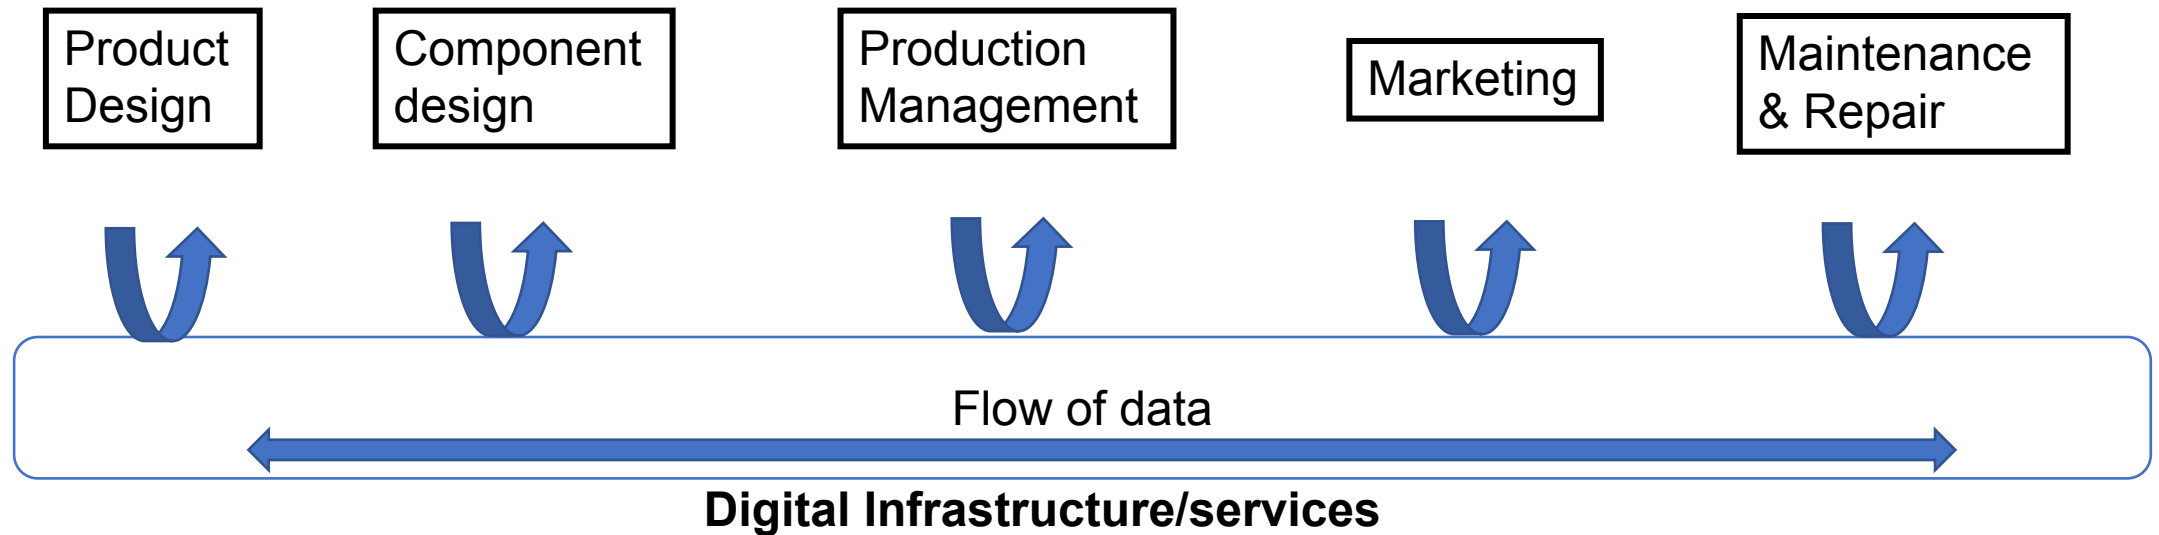

Digitalization provides solutions to the following issues.

- Disruption of supply chain
- Decarbonization and other requirements throughout supply chain

# Cyber=Physical Integration

- Business **operations** throughout supply chain are conducted upon digital infrastructure.
- **Data and analytic tools** are shared within digital architecture.
- Non-digital players (e.g. manufacturing companies, SMEs) need **capability** to properly utilize digital infrastructure.
- Otherwise they **cannot participate** in digitalized supply chain.

# Our Challenges

- **Capabilities:** Data engineering/ Data analysis/ Data Modelling
- **Approach:** Simulation-based, Agile
- **Governance:** Data Free Flow with **Trust**

# Our Future
